## About Us

Magnificent Technical Control and Inspection Service Limited is a full service pest control management Company with many years of cognate experience, licensed to provide premium quality solutions to residential, Commercial and Industrial environments.

We employ customer-centric culture and best practices for sustainable environmental protection and development to making sure we provide an all-round enabling environment to our clients and customers with regards to their health, safety, comfort and operations.

Our main goal is to provide premium quality and effective pest control solutions to all our clients and customers with a sense of exceptional value and commitment. Our qualified service specialist are able to deal with all kinds of pests including rodents, reptiles, cockroaches, termites, flies, amongst many others with professionalism of approach and response time.

Rendering quality services at its best has never been better with us.

## Easy Communication

Magnificent Technical Control and Inspection Service management team are involved in every aspect of the day-to-day tasks involved with the contracts, and are available 24/7 and will respond immediately to any client requests and concerns. Building close working relationships is an important part of our company culture: by nurturing a long-term successful partnership with our clients, ensure working together for continuous improvement and to add value to the services we provide.

## Exclusive Sustainability

We take environmental concerns and other aspects of sustainability seriously, and use ecofriendly products and processes to minimize the detrimental effect of our work. In situations where chemicals are required, our staffs are properly trained in handling and disposal techniques to ensure personal and environmental safety.

## Our reputation is built on the following guiding principles

### **Always deliver the highest standards of Pest control service:**

Attention to detail is critical in both residential, industrial, and commercial pest control and the MTCISL team pride themselves on their impeccable pest control service that is always delivered on time.

### **Customer service is our top priority:**

From initial engagement through to the actual pest control activities and post fumigation follow up, MTCISL's customer

service is second to none. Our management team is active in every aspect to ensure that our clients are satisfied.

**Health and Safety of our clients and staff is of paramount importance:**

We understand that our services are carried out with chemical fumigants which of course are toxic and injurious to humans and their ecology if not used accordingly in general sense. Therefore, we at MTCISL, conduct our services by adopting standard fumigation safety measures and practices that guarantees minimal to zero exposure and contamination to humans, food and drug products respectively.

In the Fumigation of Food sectors: Food contact surfaces, and food product materials are fumigated with Aluminium phosphide. This is well contained and leaves no toxic residues when totally spent.

For space fumigation and in areas where liquid fumigants are applied in food and drug sectors, some pesticide residues may be present after each fumigation exercise which in our procedures and practices are well taken care of during post fumigation inspection and cleaning activities.

Pesticide waste on the other hand will be in accordance with the waste disposal regulation as enforced by the environmental protection agencies to avoid damaging the local ecology.

## Our Policy

MTCISL policies are to deliver cost effective cleaning solution choices to meet each individual client's specific needs in a timely and professional way. From a careful assessment of your needs, we work with you to agree the most efficient and cost effective solution that adds real value to your operations.

## Our services

Trust, cost effectiveness and an ability to adjust our service to meet our clients' changing needs is the ethos on how we have built our business.

At MTCISL customer care is central to our success and all our clients can expect:

- Fully trained, supervised and uniformed staff.
- Systematic approach to all duties and a willingness to take responsibility and show initiative in how our staff carries out their work.
- Consistent high levels of service and standards.
- An effective client feedback communication system.
- A professional and friendly approach.
- Top quality equipment and material for all jobs

## Our staff

MTCISL ensures that all staff undergoes a thorough screening process before they are employed. We place great emphasis on staff training. In addition to on job training, which ensures our operatives are prepared for whatever tasks they will take on. Health & Safety training is an integral part of our staff induction, and not just there to comply with the regulations.

All operatives are methodically trained to carry out their duties safely, efficiently and with a high level of skill and to use their initiative when called upon. They receive task specific training as well as induction in all equipment operation. In addition, by encouraging our teams to use their initiative, whatever situations arise we can guarantee very high standards of service. All our operatives are fully aware of their Health & Safety responsibilities and receive ongoing Health & Safety training.

Our team of customer service personnel and supervisors ensure that clients have an immediate and effective feedback system to monitor work progress and ensure all work is completed to the highest standards.

## Chemical Used

We use chemicals approved by Pest Control Produce Board as Domestic Public Health Products and at each stage we issue a certificate of service with a guarantee. Due to the environmental awareness, IMP, and HACCP requirements the company maintains material safety data for all products in use and this is provided on demand to Clients. Any change in the technical aspect of the product is promptly updated on records.
